

On February 26 at 6 pm, join us at  
**THE PATIO** in Palo Alto as SLAC laser bro  
**ALAN FRY** chats about:

**LASERS** not attached to **SHARKS**,  
**ULTRAFAST SCIENCE** and the quantum  
mechanics of your **SUNGLASSES**

*We're your friendly neighborhood national lab, bringing science to the Bay Area for over 50 years. Have a drink (no host - what'd you expect), learn about who we are and even do some science of your own.*
